Enviro RECYCLER™

The Enviro RECYCLER 55 gallon bottles and cans recycling bin is designed for affordability, attractiveness, easy mobility, easy installation, and easy usage. Up to five bins can easily fit in the back seat of a regular sedan. There will be no need to arrange special transport.

The bin square shape is ideal for attractive flush to wall and corner installations.

The square shape opening accommodates all the bottle and can types.

Manufactured with a maximum of recycled content (varying by color option), the Enviro RECYCLER contains enough virgin resin to ensure optimal product durability and lifespan.
